The lowest underground level of the Imperial palace

Turn at the corridor and go straight on, and there's a room with the entrance to the dimension gate. Only...

Inevitably they'll be lying in wait in front of that room
The other side knows we're headed towards the underground gate as well
Only what?

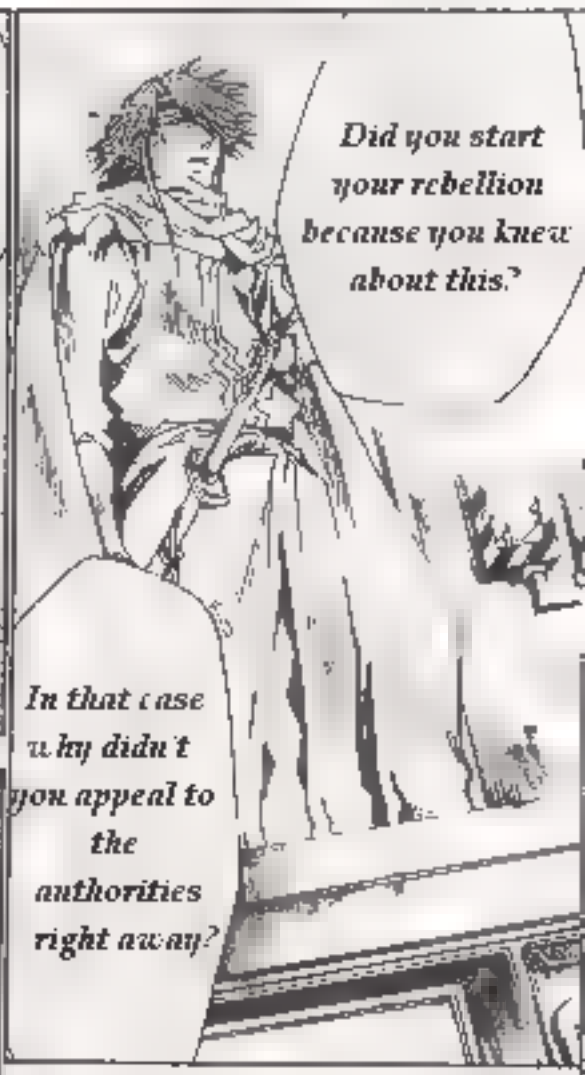
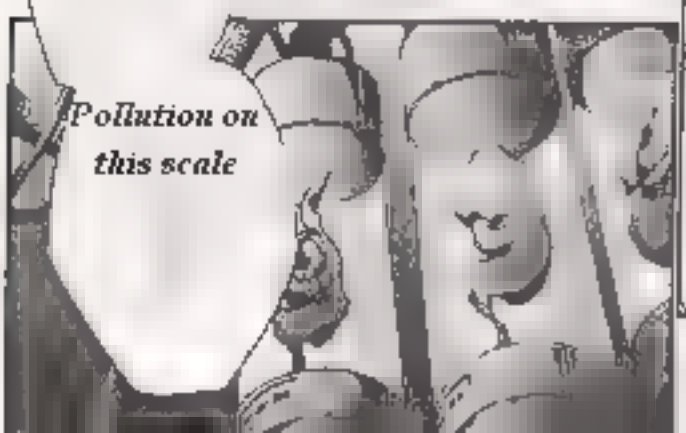
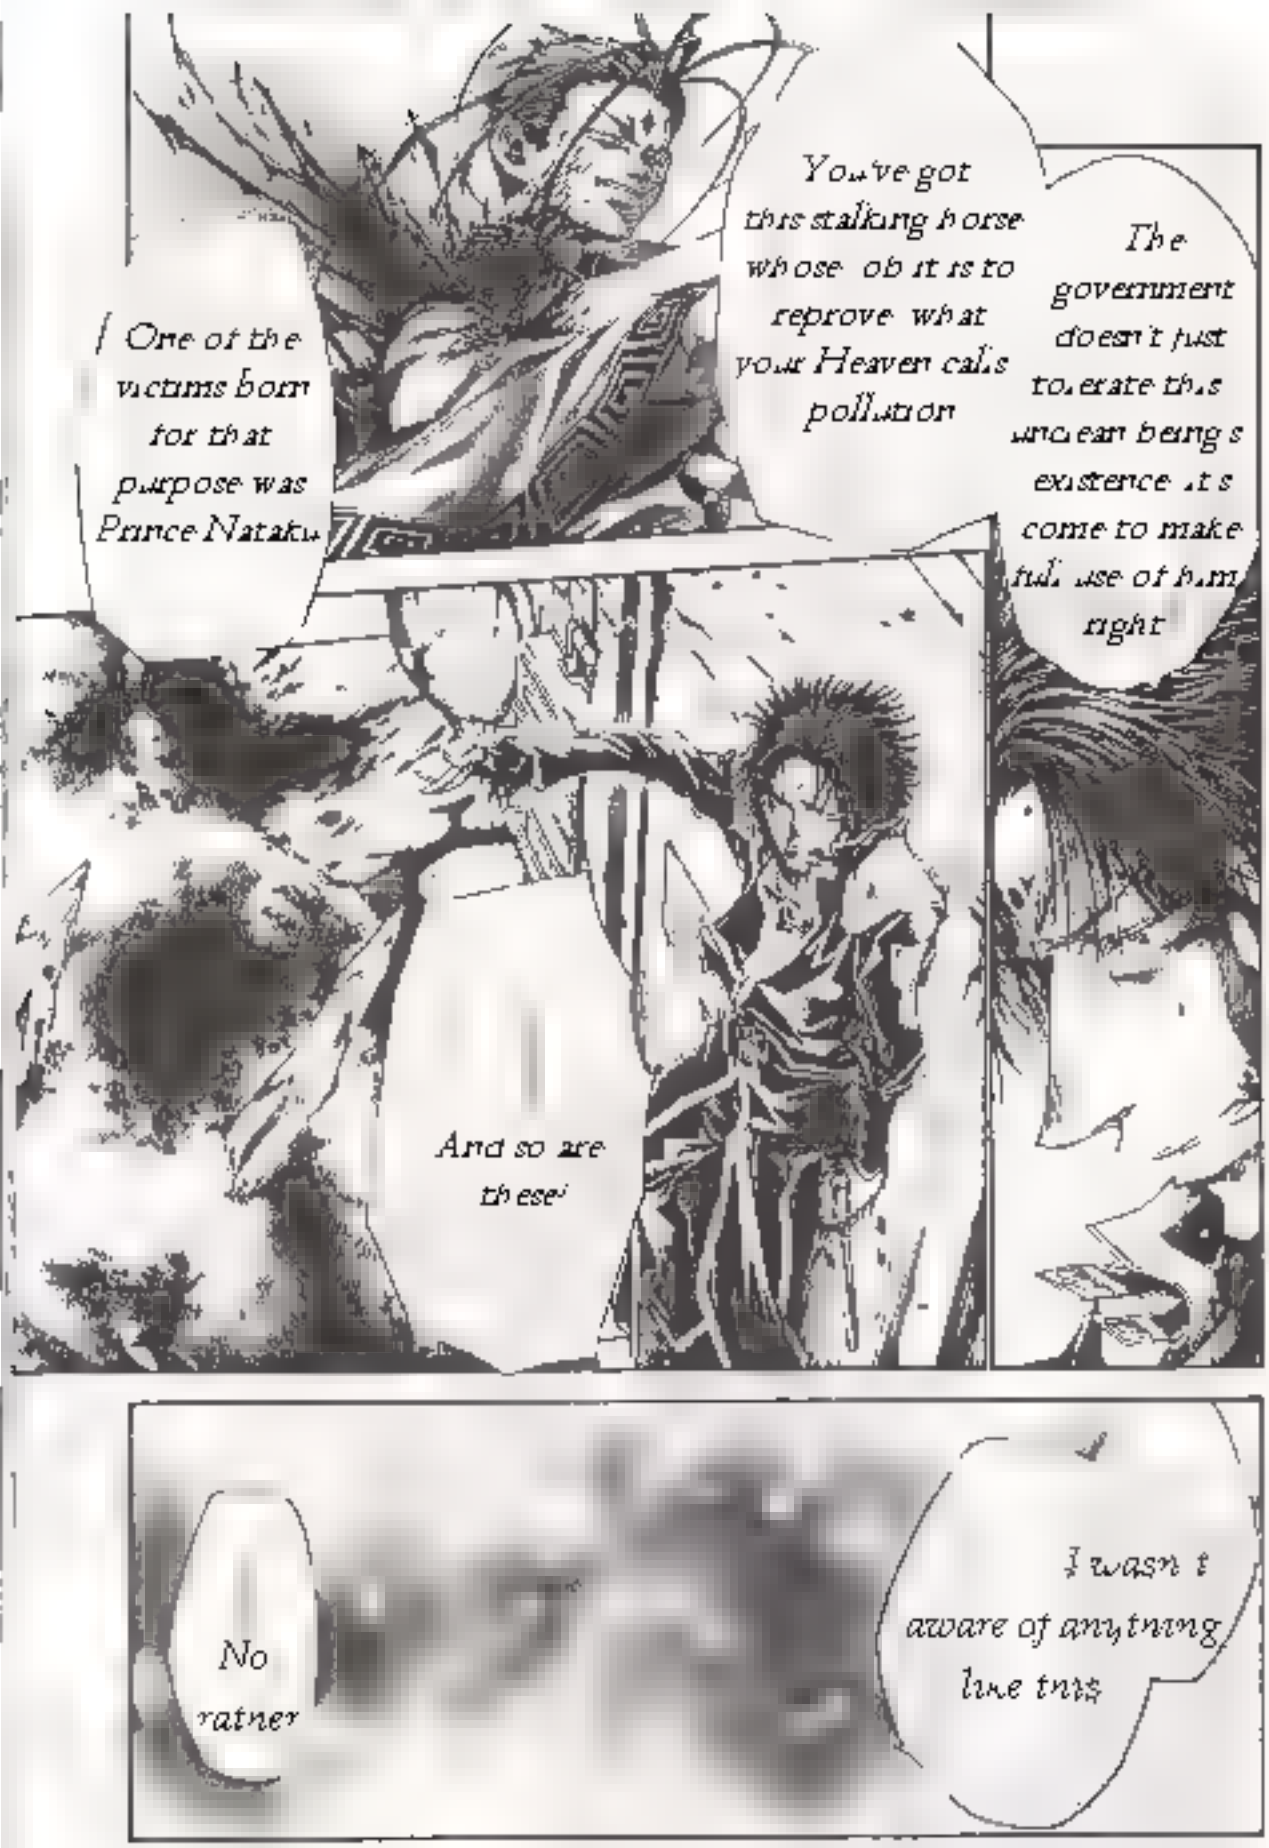
This wasn't the reason particularly
But suppose I say it was
Then what
This would never be forgiven.



Did you start your rebellion because you knew about this?
In that case why didn't you appeal to the authorities right away?



Pollution on this scale



One of the victims born for that purpose was Prince Nataku
You've got this stalking horse whose objective is to reprove what your Heaven calls pollution
The government doesn't just tolerate this and can bring's existence it's come to make full use of him right

*He says here "dama ni nari na" which is a culinary phrase advising against creating lumps in a batter. "Dama" means lump but because he particularly emphasizes this word here, so I think he's punning with another word "tama" which means soul. He's saying they should have been cautioned against getting themselves killed "becoming a soul."

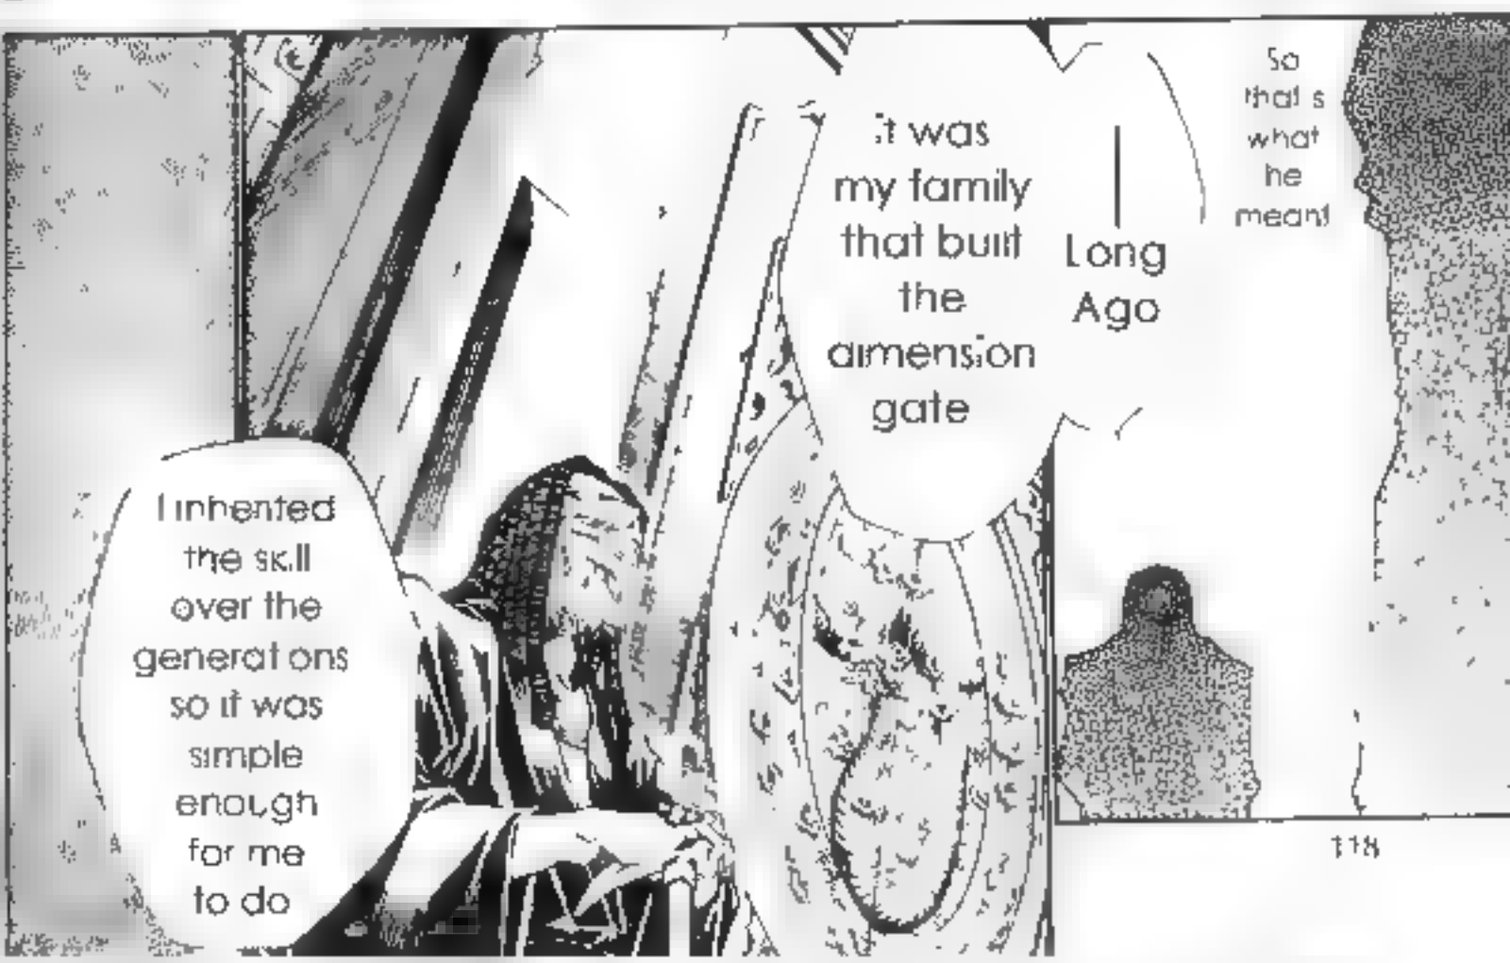
There is no way you can open the gate now.

At least, if you get there in time.

* He calls Konzen by the archaic second person pronoun 'kiden' the same way Gojun addresses Konzen.



So that's what he meant
Long Ago
It was my family that built the dimension gate
I inherited the skill over the generations so it was simple enough for me to do

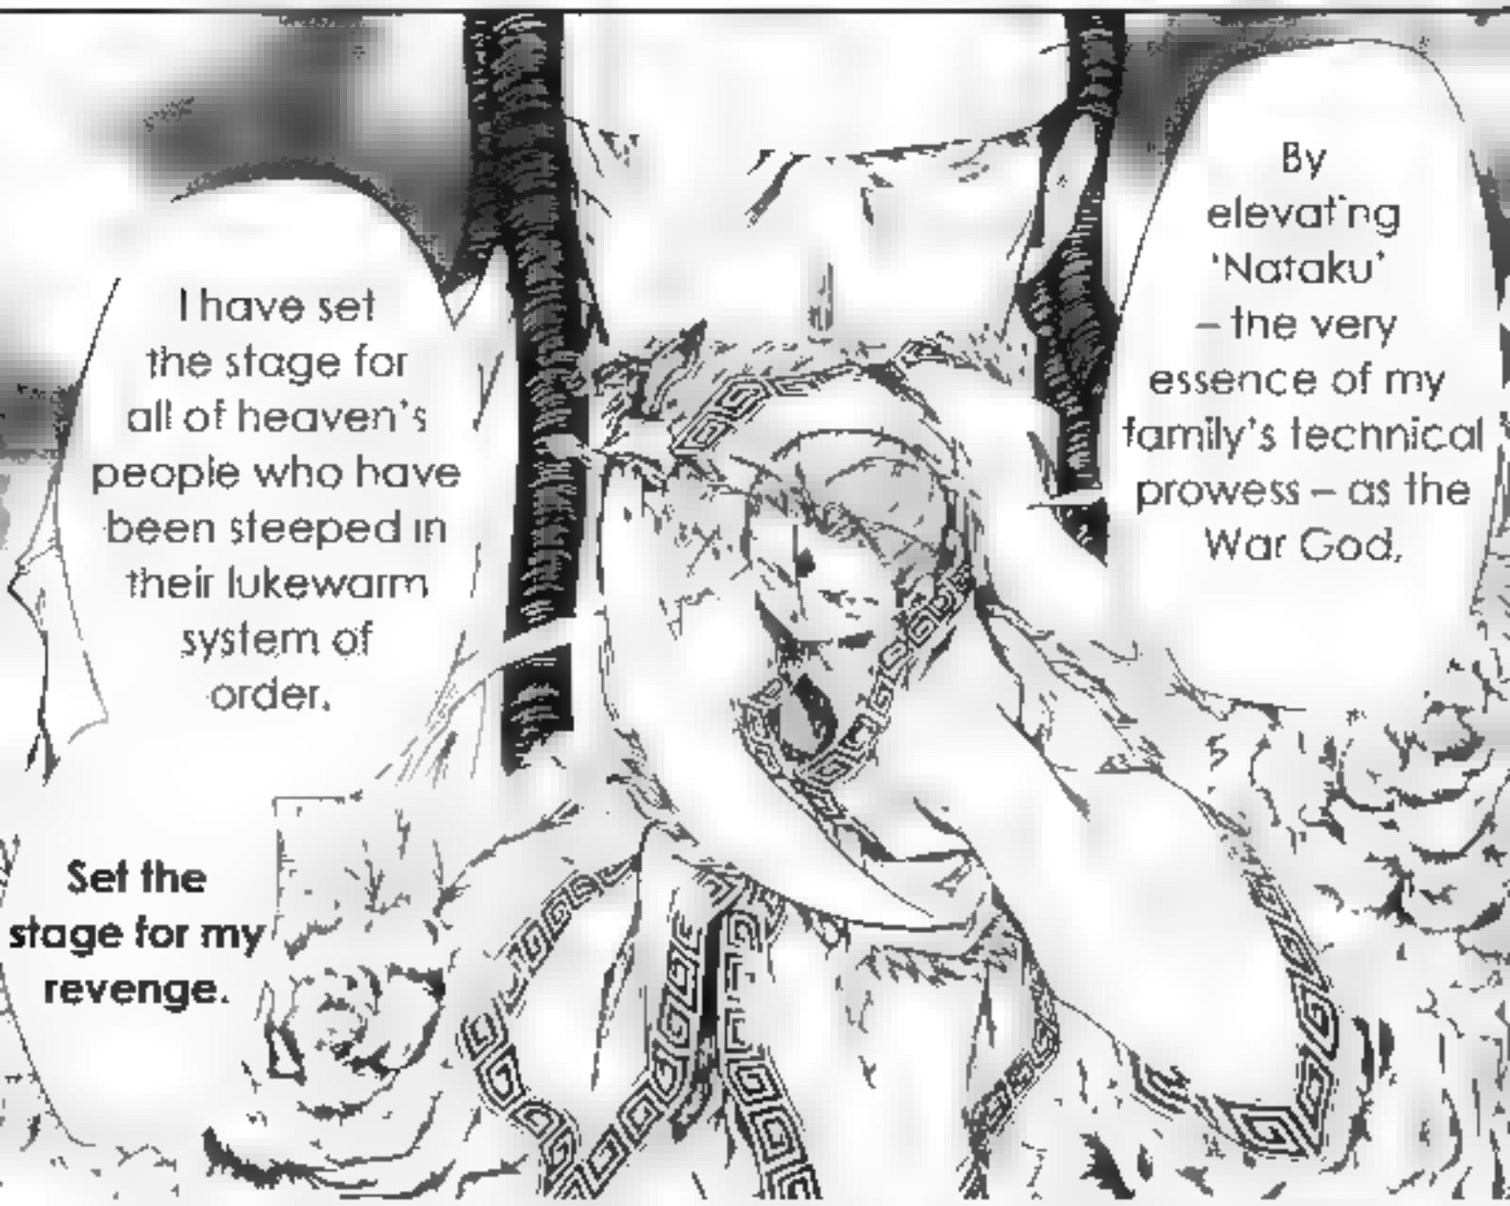
Yes
but the then Jade Emperor did not praise us for this great accomplishment
It seems that even Marshal Tenpou did not know this much.
In fact, he feared that we would wield too much power, and used his high position to bring my family to ruin.
This is my revenge.
After coming this far!



I have set the stage for all of heaven's people who have been steeped in their lukewarm system of order.
By elevating 'Nataku' – the very essence of my family's technical prowess – as the War God,
Set the stage for my revenge.

It is not just us who wished
to bring destruction upon heaven.
That's right. In the creation of all those 'Natakus, and for planning such a massive scheme like this
Hn, it is something that someone of your status would never understand
However
For something like that.
'Something like that?

That's a great face.

That look, twisted in utter humiliation, of those who had no power, and yet had strutted about with a bit attitude
That's exactly what I wanted to see
merely because of an authority that was inherited.

Born blessed with everything, and yet never ceasing with his expressions of boredom
I have known about you before
An aristocratic official whose only lofty assets are his rank and pride
You are the epitome of that which I must purify

This is not the final chapter of this story

Master Dragon King

your injuries may worsen, lest we get you inside

all right

Just like the cherry blossoms in the world below that bloom and scatter, then bloom once again.

How can you say such a thing?

And while dressed in a chemise

I've got my hands full as it is here with these settlement papers and reports.

Things could have turned into quite an ordeal, you understand!?

...piss off

I cannot help but believe that this is a story that will be passed on.

But because Dragon King Gojun brought forth charges of Ji Touten's wicked deeds and intentions to the upper ranks,

Konzen Douji and the others were cleared of the Jade Emperor's assassination -- thereby saving you from having your responsibility come into question.

What a damn bother, day in and day out.

If you do not make haste in your preparations, you will not make it on time to today's assembly!!

—Kanzeon Bosatsu.

carried out in the Palace is a fact that could not be blotted out ..

Though the massacre that Goku... no, 'Seiten Taisei.'

I don't give a damn about my responsibility.

The only thing I wonder at now— is how that runt is doing in the world below.

That day...

. the cherry blossoms in heaven scattered away.

...after being left alone...

To the people so accustomed to the serenity of heaven,
the destruction of the Palace
and the scattering of the eternal cherry blossoms were as omens of the world's end, sending them into a panic and all of heaven into an uproar
the death of the Jade Emperor,
Almost as though they were following after them.
And the upper ranks could only run about hither and thither amidst the chaos.
The army, now reduced down to half its size,
could not even assess the extent of their casualties for a while much less pursue the Seiten Taisei.

At length,

I was able to leave the sickbed and report the course of the matter to the upper ranks of heaven. –After I completed my report on Li Touten's treasonous acts,

As for myself after falling during my escape from that Breeding Room,' I injured my lower body and vertebra,

...suffered organ damage and lingered between life and death for several days thereafter

. .there was a further uproarious public criticism amongst the upper ranks.

It seemed that all they were capable of was to blame one another.

—and this completes our brief on the status of the overa damage

...the case of recovering the bodies of the rebels Konzen Douji, Marshal Tenpou, and General Kenren...

Regarding Konzen Douji, according to the soldiers who bore witness, we know that he was crushed to death by the Dimension Gate

In which case there is a high likelihood that his body disintegrated within the phenomenon between dimensions

Their bodies never fell into the hands of the Heavenly Army

We have searched the ruins of the corresponding premises

...but from the vast scale of destruction left behind,

we have determined that it would be nearly impossible to recover or verify the bodies.

What has become of the Dimension Gate?

Yes sir

We excavated the gate without delay

There was very little damage to the gate itself and after a momentary cessation in function, it is back in working order

And so—

..it was undoubtedly the case that they had fulfilled their dream of escaping from heaven.

So all that is left then is the rebel Seiten Taisei...

Though there is some part in which we feel moved to compassion, it remains that he has committed an unspeakable act and must be punished for it.

Then we command the army to immediately take up pursuit of the great offender Seiten Taisei who has escaped into the World Below

In front of the Dimension Gate in the World Below..

–The Seiten Taisei was there

...he would not move from that place where he had likely lost Konzen Douji to his death.

Just curled up like a rock. immovable—

The days that had passed in heaven must have been equivalent to several months in the World Below.

Those guys know full well the capacity of the Seiten's power

Because of that, Heaven s army won t dare lay a finger on you

Or tell me

But aside from that, a normal body would ve long since starved to death.

It s a good thing your diadem came off

I'm so happy

GWAAAH!!

Five hundred years of solitude—

That was the punishment imposed upon Seiten Taise.

In a savage land, within a stone prison upon a distant mountaintop, where no one would set foot,

he was to be sealed in by talismans that would even cut off the passage of time from the outside world.

rustle

A long, long imprisonment until their effect would run out--

The next time you wake

rustle

The upper ranks ordered Kanzeon Bosatsu to use her powers to erase all of Goku's memories of heaven.

...For one so young,

and even about those that you met—

...you would have forgotten everything.

...About the days you spent in heaven

even so,

...that may have been the one saving grace.
